

Support a Trusted Community Partner

Commute Seattle is the nonprofit that works to make it easy to walk, bike, and take transit for the 600,000 people who go to work or school in Seattle. We work with businesses and organizations of all sizes in neighborhoods across the city. We engage with businesses, organizations, community partners, and destinations in Seattle to make Seattle's opportunities easier to reach from across the region. Our work prioritizes those who are disproportionately burdened by transportation costs to support an equitable, vibrant, and prosperous Puget Sound.

Our Audience: Decision Makers & Business Leaders such as...

- Business Representatives
- Property Managers
- Transit Agency Leaders
- Elected Officials and Local Government Representatives
- Community Organization Leaders
- Community Members

How Sponsorship Benefits You

- Sponsorship provides exposure for your organization to key business representatives, agency partners, community leaders, and Puget Sound residents.
- Your sponsorship powers our work. It provides opportunities for small businesses to join our events, and benefit from commute consulting that will get transit passes into more hands.
